Lucky Dog

Some great friends of our group, Steven Greeburg, Patrick Raymond and Warren Tuttle, had success with their pilot and are going to be shooting another episode in February therefore are looking for food related innovations. If your invention fits the bill there isn't much time.

I would also suggest you show it at our annual Expo "Resources 2012" it is on 2/11/12 which happens to be Thomas Edison's birthday and we are going to have his great grand niece and author of "Innovate Like Edison" as one of our many fantastic speakers including:

- ε AJ Khubani the founder and CEO of TeleBrands a large infomercial company,
- ε Brigadier General Richard Yules who is half of the selection committee for New World Angels,
- ε Scott Hynd of Proformance Marketing who is a product scout for QVC,
- ε Steven Greenburg author of Gadget Nation and TV celebrity who is often seen on Good Morning America as well as other similar shows. Who also happens to be starring in this show, and
- ε one more speaker to be announced.

Below is the flyer for the TV show.

Lucky Dog Films is currently casting for a new Food Network series featuring inventors and their food-related innovations! If your invention is somehow connected to food—whether it is growing, processing, preparing, storing, serving, or disposing of food, we'd like to hear from you! If your invention is selected, you may have an opportunity to pitch your product to one of the nation's top housewares manufacturers.

ONLY 3 REQUIREMENTS:

1. Invention should be at least patent-pending—you are responsible for protecting your intellectual property.
2. A real working prototype to show off. Drawings are nice, but you must have a working prototype, too!
3. Outgoing personality and comfortable appearing on TV.

If you think you and your invention have what it takes, complete the submission form located at www.luckydogfilm.com/kitcheninventors.htm

If your invention looks like a good fit for the show, someone will be in touch shortly. We are an inventor-friendly show and value your privacy and intellectual property; therefore your information will not be shared with anyone unaffiliated with the program. If you have any questions or concerns, please write to us at inventionshow@luckydogfilm.com and be sure to visit www.luckydogfilm.com to learn more about our work.

TO APPLY, VISIT:
